

English

Our final writing piece will be a traditional tale based on the Indian Flood Story, *Pattan's Pumpkin*. We will learn about the suffixes **-er** and **-est** and use these words to describe nouns. We will continue learning how to use full stops, capital letters, finger spaces, exclamation marks and question marks, key parts of ensuring good literacy in Year 1. We will add to our existing knowledge of adjectives to describe settings. Looking at characters' behaviour, we will compare characters' reactions to the flood and which vegetables they use to save themselves.

What are Continents and Oceans? – Part 1

Maths

- Composition of numbers 11-19.
- Numbers 0-20 in different contexts.
- Unitising and coin recognition.
- Problem solving and reasoning problems.

British Values, Catholic Social Teaching and Gem Powers:

British Values this term is Individual Liberty which helps us to recognize our feelings and why they are important.

In Catholic Social Teaching this term, we learn how to take part.

The Gem Power this term Pearl which is showing that we can be independent and think for ourselves.

R.E.

In R.E. we will be learning about the time the Ascension, Pentecost and what happened on the road to Emmaus. We will also be learning about how the Disciples went round the world telling people about Jesus.

Author of the term

Jill Murphy

RHE:

In RHE we will be learning how we can keep ourselves safe and who can help us.

Computing:

We will be learning about the program *Paint* and how to make shapes, change the sizes of them and their colours. We will learn how to use different brush sizes to create different thicknesses of lines and to compare them. We will create a picture of a plant in the final lessons, linking to our science topic.

Geography:

This term in geography we will be learning about oceans and continents. We will be looking at globes and why they are used.

Science:

Our exciting science topic will teach children about plants, seeds, bulbs, fruits and vegetables. We will label the parts of a plant; compare garden and wild plants and do an investigation into fruits and vegetables.

Art:

This term we will be creating a seascape. We will be learning about the artist Winslow Homer and how he created seascapes. We will use different colours and materials to create our seascapes.

P.E:

In P.E. we will be practicing athletics skills. Learning how to sprint, jump and throw different objects.

Music: Your Imagination

Our learning will be based around one song: *Your Imagination*. We will listen to the song and appraise it. We will play instruments to accompany the song and develop our understanding of pitch, rhythm and pulse. We will aim to give a performance of our instrumental work, developing an understanding of how to perform and to listen.
